

“Management of the patient with eosinophilic asthma: a new era begins” Jantina C. de Groot, Anneke ten Brinke and Elisabeth H.D. Bel. *ERJ Open Res* 2015; 1: 00024-2016.

Unfortunately, the key to the symbols used in figure 2 of this article was incorrect when originally published. The article has been corrected and republished with the corrected figure below.

FIGURE 2 Effect of high dose triamcinolone on sputum eosinophils. Effect of treatment with intramuscular triamcinolone or placebo on sputum eosinophil percentages in 22 patients with eosinophilic asthma. Horizontal lines represent median values. Reproduced and modified from [87] with permission from the publisher.
