In the originally published version of this article, the sentence “A study with carboplatin plus nab-paclitaxel with and without nintedanib demonstrated that addition of nintedanib prolongs the interval to acute exacerbation [108]” should have stated “A study with carboplatin plus nab-paclitaxel with and without nintedanib was designed to demonstrate that addition of nintedanib prolongs the interval to acute exacerbation [108]. The results of this trial are expected soon.” This has been corrected in the article itself.
